01 WHO WE ARE

ENGINEERS FIRST. NOW AN AGENCY.

We spent years as hands-on engineers shipping products for startups and businesses.

After 25+ launches, from voice agents making real calls to hiring platforms used by thousands of workers, we set up Trident Square as an agency, with a team, a process and an office in Noida, so we can take on more work without dropping quality.

06 HOW THE MATHS WORKS

₹8 LAKH PROJECT. SHARE ON ₹6 LAKH.

CLIENT PAYS ₹8,00,000

Servers & hosting | KYC / verification APIs | Telephony & SMS | AI model usage | Licences & store fees

YOUR SHARE AT 25% **₹1,50,000**

Project value	₹8,00,000
– Pass-through costs	₹2,00,000
Net project value	**₹6,00,000**
Share at 25% (₹5 – 15 lakh step)	**₹1,50,000**

Pass-through costs are fixed costs the project needs and nobody controls: servers, verification, telephony, third-party APIs. They are listed in the quote with actual bills, so you always see what was deducted. Illustrative figures; GST extra.
